

ABDISA AWEL TAHIR

FULL-STACK DEVELOPER • MERN STACK DEVELOPER • REACT & NEXT.JS DEVELOPER

abdisaawel82@gmail.com | +251 938 890 645 | Addis Ababa, Ethiopia

[Portfolio](#) | [LinkedIn](#) | [GitHub — 90+ repos · 2,500+ commits](#) | Telegram: @bdisa38

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 2+ years of hands-on experience designing, building, and deploying scalable, production ready web applications. Computer Science student at Madda Walabu University with deep expertise in the MERN stack, TypeScript, and Next.js. Track record of delivering AI powered systems, enterprise grade platforms, and security critical applications that solve real-world challenges. Completed a Software Engineering Internship at Kuraz Technologies, contributing to production EdTech solutions. Maintains 90+ public repositories with 2,500+ GitHub commits reflecting relentless growth, clean engineering discipline, and a passion for solving impactful problems.

TECHNICAL SKILLS

FRONTEND	React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Redux
BACKEND	Node.js, Express.js, REST APIs, JWT, OAuth, Socket.io, Authentication & Authorization, MVC
DATABASE	MongoDB, Mongoose, MySQL, Prisma, MongoDB Atlas, ChromaDB (Vector DB)
CLOUD & DEVOPS	Vercel, Netlify, Render, Heroku, Docker, CI/CD Pipelines, Linux, Git & GitHub
CONCEPTS	RAG, RBAC, Agile Development, API Design, Security Best Practices, Responsive UI Design

PROFESSIONAL EXPERIENCE

Software Engineering Intern — Kuraz Technologies, Addis Ababa, Ethiopia *3-Month Internship*

- Collaborated with cross functional teams to build production ready EdTech solutions serving Ethiopian learners.
- Contributed to voice guided learning systems for Amharic alphabets, numbers, and basic mathematics, improving learning accessibility.
- Participated in full-stack web development tasks spanning design, implementation, testing, debugging, and code reviews.
- Applied Git version control, agile workflows, and professional engineering practices in a real world software environment.

Software Development Leader — Coding & Technology Club (CTC), Madda Walabu University *Ongoing*

- Led software development initiatives and mentored members on full-stack engineering best practices and project execution.
- Coordinated technical workshops and student driven development projects, promoting software engineering culture on campus.

FEATURED PROJECTS

CTC Learning Management System

React, TypeScript, Node.js, Express, MongoDB, Material UI

- Developed a full featured LMS with course management, gamification, community features, and student progress tracking for club members.
- Implemented OAuth authentication, analytics dashboards, and admin controls, enabling data-driven learning outcome tracking.

Github: <https://github.com/abdisa38/CTC-Club1>

Addis Kiray — AI Rental & Real Estate Marketplace

React, TypeScript, Node.js, Express, MongoDB, Google Gemini AI, JWT, Tailwind CSS

- Built a full-stack rental discovery and property management platform for Addis Ababa featuring an AI-powered conversational search engine utilizing Google Gemini 2.0 Flash for natural language property matching and automated listing copy generation.
- Implemented end-to-end multi-role workflows (Tenant, Landlord, Admin), real-time contextual messaging, appointment scheduling for in-person viewings, landlord verification badges, and secure JWT-based role authentication.

MWU Digital Clearance & Certification System

React, TypeScript, Node.js, Express, MongoDB Atlas, Tailwind CSS, JWT, QR Code

- Engineered an enterprise-grade e-clearance platform for Madda Walabu University, digitizing a 6-stage multi-desk clearance pipeline across Department Head, Library, Dormitory, Cafeteria, Bookstore, and Central Registrar.
- Architected a tamper-evident digital certificate engine with cryptographic SHA-256 verification and universal QR codes, enabling employers and embassies to verify student graduation clearance instantly.
- Implemented strict Role Based Access Control (RBAC) across 3 customized portals (Student, Desk Officer, Registrar Admin), automated academic profile synchronization, real-time approval queues, and in-app desk messaging.

Github: <https://github.com/abdisa38/mwuu-cms-web-based>

Asella Ras Hotel & Resort Web Platform

React, Tailwind CSS, Vite, Framer Motion, Swiper.js, React Router

- Developed a full-featured luxury hotel and resort web application featuring seamless room reservation flows, dynamic interactive widgets, and curated regional tourism showcases.
- Engineered high performance, fluid UI transitions with Framer Motion and Swiper.js, integrating bilingual (Amharic & English) guest reviews, category filtered media galleries, and Google Maps location services.

EDUCATION

Bachelor of Computer Science

Expected Graduation: 2019

Madda Walabu University — Fourth Year Student | Bale Robe, Ethiopia

Relevant Coursework: Data Structures & Algorithms, Database Systems, Software Engineering, Computer Networks, Operating Systems, Computer Organization & Architecture

CERTIFICATIONS & ACHIEVEMENTS

- Software Engineering Internship Certificate — Kuraz Technologies
- Future Startup Founders Training Certificate
- Entrepreneurship Training and Workshop Certificate
- 2,500+ GitHub commits and 90+ public repositories reflecting consistent, high quality engineering output.
- Built and deployed multiple production ready AI powered and security focused web applications solving real world problems.
