

ABDISA AWEL TAHIR

Full-Stack Developer • MERN Stack Developer • React & Next.js Developer

📍Addis Ababa, Ethiopia 📞+251 938 890 645 ✉abdisaawel82@gmail.com 🌐https://abdisa.pro.et/ 🐙https://github.com/abdisa38

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 2+ years of hands-on experience designing, building, and deploying scalable, production-ready web applications with a focus on the MERN stack. Proven track record of delivering AI-powered systems, enterprise-grade platforms, and security-critical applications solving real-world challenges. Passionate Computer Science student at Madda Walabu University with deep expertise in TypeScript, Next.js, and RAG architectures, possessing a relentless growth mindset reflected in 2,500+ GitHub commits across 90+ public repositories.

PROFESSIONAL EXPERIENCE

Kuraz Technologies | Software Engineering Intern | 3-Month Internship

- Spearheaded the development of production-ready EdTech solutions by building voice-guided learning systems for Amharic alphabets, managing the full-stack lifecycle to reduce production bugs by 15% through Agile workflows.

Coding & Technology Club (CTC) | Software Development Leader | Ongoing

- Directed software development initiatives by mentoring student developers on MERN stack engineering best practices to deploy 5+ campus-wide digital solutions and orchestrated technical workshops that increased club technical competency by 40%.

SKILLS & TECHNOLOGIES

Professional Skills: Full-Stack Development, API Design, RESTful Architecture, Agile Development, Security Best Practices, Responsive UI Design, RAG, Role-Based Access Control (RBAC)

Tools & Technologies: React.js, Next.js, Node.js, Express.js, MongoDB, TypeScript, Tailwind CSS, Material UI, Redux, JWT, OAuth, Docker, Git, CI/CD, Prisma, Vercel, MySQL

Languages: JavaScript (ES6+), Python,C++,Java.

FEATURED PROJECTS

AddisKiray — AI Rental & Real Estate Marketplace

Tech Stack: React, TypeScript, Node.js, Express, MongoDB, Google Gemini AI, JWT, Tailwind CSS

- Built a full-stack rental discovery platform featuring an AI-powered conversational search engine using Google Gemini 2.0 Flash for natural language property matching.
- Implemented end-to-end workflows for Tenants, Landlords, and Admins with real-time messaging and JWT-based role authentication.

GitHub: <https://github.com/abdisa38/KirayAddis>

MWU Digital Clearance & Certification System

Tech Stack: Next js, TypeScript, Node.js, Express, MongoDB Atlas, Tailwind CSS, JWT, QR Code

- Engineered an enterprise-grade e-clearance platform for Madda Walabu University, digitizing a 6-stage multi-desk clearance pipeline across key administrative departments.
- Architected a tamper-evident digital certificate engine with cryptographic SHA-256 verification and universal QR codes for instant external verification.

GitHub: <https://github.com/abdisa38/mwuu-cms-web-based>

CTC Learning Management System

Tech Stack: React, TypeScript, Node.js, Express, MongoDB, Material UI

- Developed a full-featured LMS with course management, gamification, community features, and student progress tracking for club members.
- Implemented OAuth authentication, analytics dashboards, and admin controls enabling data-driven learning outcome tracking.

GitHub: <https://github.com/abdisa38/CTC-Club1>

Asella Ras Hotel & Resort Web Platform

Tech Stack: Next js, Tailwind CSS, Vite, Framer Motion, Swiper.js, React Router

- Developed a luxury hotel web application featuring seamless room reservation flows, interactive widgets, and curated regional tourism showcases.

GitHub: <https://github.com/abdisa38/Ras-hotel>

EDUCATION

Madda Walabu University | Bachelor of Computer Science | 2022 - Expected 2026

Location: Bale Robe, Ethiopia | Major: Computer Science

Relevant Coursework: Data Structures & Algorithms, Database Systems, Software Engineering, Computer Networks, Operating Systems, Computer Organization & Architecture.

CERTIFICATIONS & ACHIEVEMENTS

- Software Engineering Internship Certificate — Kuraz Technologies
- Future Startup Founders Training Certificate
- Entrepreneurship Training and Workshop Certificate
- Achievement: 2,500+ GitHub commits and 90+ public repositories reflecting consistent, high-quality engineering output.
