

ABDISA AWEL TAHIR

Full-Stack Developer | MERN Stack Developer | React & Next.js Developer

📍 Addis Ababa, Ethiopia 📞 +251 938 890 645 ✉️ abdisaawel82@gmail.com 🌐 github.com/abdisa38 🔗 LinkedIn 📧 @bdisa38

PROFESSIONAL SUMMARY

- Full-Stack Software Engineer with over 2 years of hands-on experience designing and deploying scalable, production-ready web applications.
- Deeply proficient in the MERN stack, TypeScript, and Next.js, with a proven track record of delivering AI-powered and enterprise-grade systems.
- Committed to clean engineering discipline and high-quality code, as evidenced by a consistent GitHub presence and the successful delivery of diverse software solutions.

PROFESSIONAL EXPERIENCE

Kuraz Technologies — Software Engineering Intern

3 Months | Addis Ababa, Ethiopia

- Full-Stack EdTech Development and Accessibility Optimization:** Spearheaded the development of production-ready voice-guided learning systems for Amharic alphabets and numbers, effectively increasing learning accessibility for over 500 initial users by integrating advanced full-stack functionalities within a collaborative environment.
- Agile Workflow Integration and Quality Assurance:** Executed comprehensive software development tasks ranging from UI design to final debugging and code reviews, maintaining a 100% adherence rate to professional engineering practices and Git version control standards.

Coding & Technology Club (CTC), Madda Walabu University — Software Development Leader

Ongoing | Bale Robe, Ethiopia

- Strategic Technical Leadership and Engineering Mentorship:** Mentor a growing community of members on MERN stack best practices and clean code discipline, directly overseeing the successful execution of multiple enterprise-level student projects.
- Educational Program Management and Skill Enhancement:** Coordinate weekly technical workshops and student-driven development initiatives that have increased the club's active repository count by 30% and fostered a robust culture of innovation and collaborative software engineering on campus.

SKILLS & TECHNOLOGIES

Professional Skills: Agile Development, MVC Architecture, Responsive UI Design, RAG, RBAC, REST APIs, JWT, OAuth, Socket.io

Tools & Technologies: React.js, Next.js, TypeScript, Node.js, Express.js, MongoDB, MySQL, Prisma, ChromaDB, Docker, CI/CD Pipelines, Linux, Git & GitHub, Tailwind CSS, Material UI, Redux

Languages: JavaScript (ES6+), HTML5, CSS3

FEATURED PROJECTS

CTC Learning Management System

React, TypeScript, Node.js, Express, MongoDB, Material UI

Live: <https://www.ctc2026.codes/> | GitHub: <https://github.com/abdisa38/CTC-Club1>

- Developed a comprehensive LMS featuring course management, gamification, and student progress tracking for club members. Implemented secure OAuth authentication and advanced analytics dashboards, facilitating data-driven learning outcomes for all users.

AddisKiray — AI Rental & Real Estate Marketplace

React, TypeScript, Node.js, Express, MongoDB, Google Gemini AI, JWT, Tailwind CSS

Live: <https://addiskiray.pro.et/> | GitHub: <https://github.com/abdisa38/KirayAddis>

- Built a full-stack real estate marketplace featuring an AI-powered conversational search engine utilizing Google Gemini 2.0 Flash for natural language property matching. Engineered multi-role workflows for tenants and landlords, including secure appointment scheduling and automated listing generation.

MWU Digital Clearance & Certification System

React, TypeScript, Node.js, Express, MongoDB Atlas, Tailwind CSS, JWT, QR Code

Live: <https://mwu.pro.et> | GitHub: <https://github.com/abdisa38/mwu-cms-web-based>

- Engineered an enterprise-grade e-clearance platform digitizing a 6-stage university pipeline with cryptographic SHA-256 verification and universal QR codes for instant certificate validation. Architected strict Role-Based Access Control (RBAC) for three customized portals to streamline academic approval queues.

Asella Ras Hotel & Resort Web Platform

React, Tailwind CSS, Vite, Framer Motion, Swiper.js, React Router

Live: <https://rashotel.pro.et> | GitHub: <https://github.com/abdisa38/Ras-hotel>

- Developed a luxury resort web application featuring seamless room reservation flows and high-performance fluid UI transitions using Framer Motion. Integrated bilingual support, dynamic media galleries, and Google Maps services to enhance user experience.

EDUCATION

Madda Walabu University — Bachelor of Computer Science

Fourth Year Student | Expected Graduation: 2027

Location: Bale Robe, Ethiopia

Relevant Coursework: Data Structures & Algorithms, Database Systems, Software Engineering, Computer Networks, Operating Systems, Computer Organization & Architecture

CERTIFICATIONS & ACHIEVEMENTS

- Software Engineering Internship Certificate — Kuraz Technologies
- Future Startup Founders Training Certificate
- Entrepreneurship Training and Workshop Certificate
- Recognized for 2,500+ GitHub commits and 90+ public repositories reflecting consistent engineering output
- Successfully deployed multiple production-ready AI-powered and security-focused web applications
